

## App Developer

### Job brief

We are looking for a qualified **App Developer** to design and code functional programs and apps. You will work as part of a small team which requires you to be a team player but also able to work individually and independently.

We are looking for an App Developer with excellent knowledge of required programming languages. You must be familiar with iOS/Android operating systems and platforms. The ideal candidate for us will also have an analytical mindset and a keen eye for detail.

The goal is to write “clean” and flawless code to produce fully functional software apps according to requirements and suggesting new features for improving program navigation and operation.

### Responsibilities

- Understand requirements and how they translate in app features
- Collaborate with team to set specifications for new apps
- Design creative prototypes according to specifications
- Write high quality source code to program complete apps within deadlines
- Perform unit and integration testing before launch
- Conduct functional and non-functional testing
- Troubleshoot and debug apps
- Evaluate existing apps to reprogram, update and add new features
- Integrate ads and IAP
- Stay up-to-date with industry developments, policies, trends and best practices
- Participate in industry specific forums, reading professional publications and maintaining professional networks

### Requirements

- Proven experience as App developer
- Experience in designing and building apps
- Ability to program in required programming language such as C#, Java etc.
- In-depth knowledge of programming for iOS/Android operating systems and platforms using development tools
- Excellent understanding of software design and programming principles
- A team player with excellent communication skills in English language
- Analytical thinking and innovative problem-solving capability
- Great attention to detail and time-management skills
- BSc/BA in computer science or relevant field; MSc/MA will be appreciated
- A plus if App Developer have basic knowledge of web development
